## Payment Plan 2 - Student Hero

Academy of Sound Engineering has partnered with Student Hero to provide the optimal funding solution for the student. They assist students in applying or pre qualifying for various funding options at very low interest rates. A dedicated consultant will “hold the student’s hand” the student and fee payer through the process. This enables real time loan approval to expedite the application process.

## Payment Plan 3 - Student Loan

Many banks provide student loans for students needing to fund their Higher Education studies. The surety holder of the account pays back a much lower interest amount per month and the full value of the principal debt only commences once the student has completed the qualification. This makes for a far more affordable option, whilst the student is studying. The financial institution will require proof of registration and a quote for the fees.

### Payment Plan 4 - External Bursaries

Students are able to contact the external bursary providers listed below who may provide either partial or full bursaries. Please contact them directly for more information as we are not directly affiliated with these institutions. We will provide students with the necessary documentation when requested.
